

Mission Statement

The Shelbyville Fire & Rescue will provide fire protection and suppression to the city of Shelbyville to the level of training received by its members and with the equipment available.

We will provide assistance and rescue programs comparable to the training and ability of the members and to the extent that the equipment allows.

We will assist the community in a manner required to the extent practical and feasible within the department's standard operating procedures.

We will assist neighboring fire departments with aid to the extent that the community protected by this department is not in danger.

We will obtain the latest in firefighting training techniques to the best of our ability and within our budgetary and practical allowances.

We will be financially responsible with the communities funds provided and the equipment owned by this department.

We will maintain a fire and rescue service that the community can be proud of and we will strive to bring no dishonor upon the community served by it.
