

To all members:

This book is a manual of operations for the City of Shelbyville Fire & Rescue. It will give each member a good understanding of the policies and procedures set forth by the department. Upon entry into this department all recruits shall have this manual addressed with them by a selected officer. Upon completion of reading this manual, you will be required to sign an agreement that you will follow the policies and procedures set forth by it.

Members of the Shelbyville Fire & Rescue must realize that no single volume can contain answers to every situation that may arise while performing their assigned duties. The following Standard Operating Procedures and Professional Qualifications will assist members in becoming an active and beneficial member of this department.

As any fire service organization, the Chief must retain the right to give special consideration in applying written standards in order to maintain a functioning fire department.

If at any time you should need to reference this manual, copies of it will be located in the radio rooms at the three fire houses or online at the Shelbyville fire rescue website under files.
